

# SPRINGER NATURE

Updated 03 February 2026

| Journal Title                         | eISSN     | Publishing Model | OA License |
|---------------------------------------|-----------|------------------|------------|
| Nature Energy                         | 2058-7546 | Hybrid           | CC BY      |
| Nature                                | 1476-4687 | Hybrid           | CC BY      |
| Nature Neuroscience                   | 1546-1726 | Hybrid           | CC BY      |
| Nature Biomedical Engineering         | 2157-846X | Hybrid           | CC BY      |
| Nature Cell Biology                   | 1476-4679 | Hybrid           | CC BY      |
| Nature Geoscience                     | 1752-0908 | Hybrid           | CC BY      |
| Nature Sustainability                 | 2398-9629 | Hybrid           | CC BY      |
| Nature Food                           | 2662-1355 | Hybrid           | CC BY      |
| Nature Materials                      | 1476-4660 | Hybrid           | CC BY      |
| Nature Electronics                    | 2520-1131 | Hybrid           | CC BY      |
| Nature Microbiology                   | 2058-5276 | Hybrid           | CC BY      |
| Nature Astronomy                      | 2397-3366 | Hybrid           | CC BY      |
| Nature Photonics                      | 1749-4893 | Hybrid           | CC BY      |
| Nature Chemical Biology               | 1552-4469 | Hybrid           | CC BY      |
| Nature Medicine                       | 1546-170X | Hybrid           | CC BY      |
| Nature Structural & Molecular Biology | 1545-9985 | Hybrid           | CC BY      |
| Nature Climate Change                 | 1758-6798 | Hybrid           | CC BY      |
| Nature Chemistry                      | 1755-4349 | Hybrid           | CC BY      |
| Nature Metabolism                     | 2522-5812 | Hybrid           | CC BY      |
| Nature Cancer                         | 2662-1347 | Hybrid           | CC BY      |
| Nature Aging                          | 2662-8465 | Hybrid           | CC BY      |
| Nature Ecology & Evolution            | 2397-334X | Hybrid           | CC BY      |
| Nature Biotechnology                  | 1546-1696 | Hybrid           | CC BY      |
| Nature Machine Intelligence           | 2522-5839 | Hybrid           | CC BY      |
| Nature Genetics                       | 1546-1718 | Hybrid           | CC BY      |
| Nature Human Behaviour                | 2397-3374 | Hybrid           | CC BY      |
| Nature Computational Science          | 2662-8457 | Hybrid           | CC BY      |
| Nature Physics                        | 1745-2481 | Hybrid           | CC BY      |
| Nature Plants                         | 2055-0278 | Hybrid           | CC BY      |
| Nature Methods                        | 1548-7105 | Hybrid           | CC BY      |
| Nature Immunology                     | 1529-2916 | Hybrid           | CC BY      |
| Nature Nanotechnology                 | 1748-3395 | Hybrid           | CC BY      |
| Nature Catalysis                      | 2520-1158 | Hybrid           | CC BY      |
| Nature Synthesis                      | 2731-0582 | Hybrid           | CC BY      |
| Nature Cardiovascular Research        | 2731-0590 | Hybrid           | CC BY      |
| Nature Cities                         | 2731-9997 | Hybrid           | CC BY      |
| Nature Chemical Engineering           | 2948-1198 | Hybrid           | CC BY      |
| Nature Water                          | 2731-6084 | Hybrid           | CC BY      |
| Nature Mental Health                  | 2731-6076 | Hybrid           | CC BY      |
| Nature Health                         | 3005-0693 | Hybrid           | CC BY      |
| Nature Sensors                        | 3059-4499 | Hybrid           | CC BY      |
